

Feedback Analysis

2023-24

The Feedback of all B. Pharm. and M. Pharm courses were collected based on percentage satisfaction on certain questionnaire and the marking were done based on 1 to 5 (1- poor to 5- excellent). The feedback was taken from students on courses and have been mapped as follows:

Based on the above feedback, the analysis was performed as follows:

The courses having attainment less than 2 have been analyzed as follows:

Total number of courses in B. Pharm = 68		
Total number of courses in M. Pharm = 100		
Total number of courses = 168		
Total number of courses having attainment less than 3 = 23		
Hence total number of courses having attainment 3 = 168 - 23 = 145		

From the above analysis it has been found that $(145/168) \times 100 = 86.31\%$ of courses passed the attainment of 3 while 13.69% courses achieved attainment less than 3 (i.e. 0, 1 or 2). The distribution of this attainment w.r.t courses have been provided in the following pi-chart.

Distribution of courses having attainment more than and less than 3

In addition to that, the courses which have percentage satisfaction less than 80% as well as attainment less than 2 were separately identified and illustrated as follows:

Course	Percentage satisfaction	Course attainment
PT314	76.18	2
PT316	76.91	2
PT414	77.33	2
PT413	79.75	1
PT416	77.82	2

From the above analyses, it may be seen that the aforementioned five courses needs serious attention since they have both percentage satisfaction less than 80% and course attainment less than 3.
